

TiGenix provides update on proposed initial public offering in the United States

Leuven (BELGIUM) – October 26, 2016, 23:00h CET – TiGenix NV (Euronext Brussels: TIG; the “Company”), an advanced biopharmaceutical company focused on developing and commercializing novel therapeutics from its proprietary platforms of allogeneic expanded stem cells, announced today the filing of an amendment to its registration statement on Form F-1 with the U.S. Securities and Exchange Commission for the proposed initial public offering in the United States of its American Depositary Shares (“ADSs”), initially filed on December 22, 2015. The amendment includes a revised syndicate of underwriters for the proposed offering. The number and price of the ADSs to be offered will be determined if and when the initial public offering is launched.

BofA Merrill Lynch and Cowen and Company are acting as joint book-running managers for the proposed offering. Canaccord Genuity Inc. is acting as lead manager and BTIG, LLC is acting as co-manager.

A registration statement relating to the ADSs has been filed with the U.S. Securities and Exchange Commission but has not yet become effective. The ADSs may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective. The proposed offering of ADSs will be made only by means of a prospectus. TiGenix’s ordinary shares are currently listed on Euronext Brussels.

A copy of the preliminary prospectus, when available, can be obtained from BofA Merrill Lynch, NC1-004-03-43, 200 North College Street, 3rd floor, Charlotte, NC 28255-0001, Attn: Prospectus Department, Email: dg.prospectus_requests@baml.com and from Cowen and Company LLC, c/o Broadbridge Financial Services, 1155 Long Island Avenue, Edgewood, NY 11717, Attention: Prospectus Department, by telephone at (631) 274-2806 or by fax at (631) 254-7140.

About TiGenix

TiGenix NV (Euronext Brussels: TIG) is an advanced biopharmaceutical company focused on developing and commercializing novel therapeutics from its proprietary platforms of allogeneic, or donor-derived, expanded stem cells. Our lead product candidate from the adipose-derived stem cell technology platform is Cx601, which is in registration with the European Medicines Agency for the treatment of complex perianal fistulas in Crohn’s disease patients. Our adipose-derived stem cell product candidate Cx611 has completed a Phase I sepsis challenge trial and a Phase I/II trial in rheumatoid arthritis. Effective July 31, 2015, TiGenix acquired Coretherapix, whose lead cellular product candidate, AlloCSC-01, is currently in a Phase II clinical trial in Acute Myocardial Infarction (AMI). In addition, the second product candidate from the cardiac stem cell-based platform acquired from Coretherapix, AlloCSC-02, is being developed in
